## Profile

Result-driven Full Stack Developer with over 1 year in web application development. Proficient in crafting robust frontend and backend solutions using JavaScript, VueJS, HTML5, CSS, and ASP.NET MVC. Skilled at collaborating with cross-functional teams, delivering top-notch software solutions, and solving complex problems. Passionate about developing user-friendly, responsive web applications that elevate user experiences.

## Employment History

### Business Architecture Analyst at Accenture, Kelana Jaya

MARCH 2024 — MAY 2024

- Identified, diagnosed, and fixed web-based distribution management system bugs, improving functionality and user experience.
- Provided L1-L3 customer support, addressing various technical issues and ensuring timely resolution to maintain customer satisfaction.

### Full Stack Developer (Part-Time) at Nextale, Petaling Jaya

OCTOBER 2023 — DECEMBER 2023

- Developed an event seating arrangement module for RSVP Web Application, using technologies like Laravel for backend development and Vue.js for frontend development.
- Integrated third-party npm libraries to streamline development and add additional functionalities.
- Identified and resolved performance issues, enhancing application efficiency and user experience.

### Consultant at Fusionex Group, Petaling Jaya

JULY 2022 — FEB 2024

- Designed and implemented frontend and backend functionality for data visualization software, using technologies such as ASP.NET MVC, ASP.NET Core, and Knockout.js.
- Collaborate with cross-functional teams to gather requirements, design solutions, and deliver high-quality software solutions.
- Developed a forecasting module for estimating construction project fees, resulting in a 20% reduction in human effort and errors associated with manual fee calculations.
- Mentored and guided two interns throughout their 3-6 months industrial training period, facilitating their growth and development within the team.

### Web Developer (Internship) at Fusionex Group, Petaling Jaya

JANUARY 2022 — JUNE 2022

- Update the web designs to a more minimalist design provided by UI designers.
- Collaborated with senior developers to implement frontend functionality and ensure smooth user experience.
- Participated in testing and debugging of web applications to ensure optimal performance.

### Software Tester (Internship) at Fusionex Group, Petaling Jaya

FEBRUARY 2020 — MAY 2020

- Analyzed requirements and designed test cases to ensure complete test coverage
- Detected and reported software defects and provided detailed bug reports to developers
- Developed automated test scripts that reduced manual testing time by 30%
